ONE TINY SUITCASE CANADA'S PREMIER BABY EQUIPMENT RENTAL COMPANY

The One Tiny Suitcase Story

Since our opening day we have been working hard to service families. Passion for family travel led me to develop One Tiny Suitcase into Canada's premier baby equipment rental company. Now, as our product range expands to include rentals for New and Expectant Mothers we continue to look for ways to give our clients exceptional service.

As a Health and Safety professional I spent the last 9 years working for an international retailer of children's furniture and toys. My days revolved around making sure products were displayed, sold and enjoyed safely by children and their families. Safety has always been my top priority and continues today as I provide top quality children's products.

My jobs as wife, mother and business owner are like many modern day moms. We want the best for our children and are diligent in sourcing out ways to improve our lives, while keeping things simple. *Stacey Corbett*
